

HARSH VIJAY SINGH KALSI

AI / Product / Software Engineer

Mumbai 400077, India | harshanchez@outlook.com | 8569819403 | [LinkedIn](#)

Engineering isn't just my profession; it's my cognitive baseline: driven by an innate instinct to analyze complex problems, isolate inefficiencies, and relentlessly engineer superior solutions.

Professional Summary

Creative and analytical AI Engineer and founder with a CS (AI/ML) foundation, specializing in translating ambitious, multidisciplinary vision into 0-to-1 production-ready enterprise solutions. Driven by an execution-first mindset that pairs inventive problem solving, focusing on identifying bottlenecks in systems, adjusting production workflows, and converting the complex real-world constraints into scalable probabilistic software by engineering past conventional limits. I have a proven ability to bridge the gap between technical and operational aspects by bringing together teams across Engineering, Product, CSM, Sales, and executive client stakeholders to ensure end-to-end product delivery and achieve measurable impact(ROI, Latency, and Containment).

EXPERIENCE

AI Project Manager, GreyLabs AI, Mumbai, India

Jun 2026 to Aug 2026

- Managed production **AI voicebot and speech analytics deployments** for BFSI clients, working across Engineering, Product, CSM, Sales, and client stakeholders.
- Ran live campaigns and **calibrated prompts, workflows, and system parameters in real time**, consistently improving voicebot accuracy to **90-95%+** compared with the **typical 85-90% range**, while diagnosing call-level failures and translating findings into client-facing insights.
- Built **UI, backend, and delivery workflows for voicebot and speech-analytics tooling, cutting development/delivery time by ~25%**, reducing token costs by **~87.5% (8x efficiency) per iteration**, and significantly reducing iteration cycles. **Standardized workflows** to improve consistency and maintain **90-95%+ accuracy** across deliveries.
- Worked hands-on with **Python, Django/Flask, PostgreSQL, JavaScript, JSON, APIs, prompt engineering, STT/TTS, and voicebot systems**, including onsite forward-deployed client support.

Freelance Programming, Self, Chandigarh, India

Nov 2019 to Present

- Delivered end-to-end solutions across **Python, AI/ML, data science, and Django**.
- **Built scalable systems** including automation tools, MySQL applications, and C++/Pygame software.
- Developed **ML models and data pipelines** using Python and R.
- Leveraged AI tools and prompt engineering to **enhance development**.
- **Managed multiple projects** from requirements to deployment.

Founder, TherapAI, Chandigarh, India

Feb 2023 to Nov 2023

- Built an AI-driven therapy system using OpenCV, NLP, and biosensors for real-time emotion detection.
- Developed multimodal pipelines combining facial, vocal, and physiological signals.
- Designed data fusion workflows to generate actionable emotional insights.
- Implemented adaptive feedback systems to regulate mood via music and lighting.
- Improved system performance through iterative testing and calibration.

Co-Founder, Fassionate, Chandigarh, India

Jul 2025 to Oct 2025

- Built an early-stage fashion platform focused on outfit sharing, peer feedback, and identity-based discovery.
- Designed an event-driven backend with taste-learning, matching, and feed ranking using cosine similarity.
- Developed APIs for core flows including posting, reactions, onboarding, and discovery.
- Led product iteration through PRDs and user-driven feature refinement.

SKILLS

- | | | | |
|------------------------|----------------------|------------------------|----------------------|
| • Python | • C++ | • JavaScript | • JSON |
| • Machine Learning | • Data Science | • LLM Engineering | • NLP |
| • Computer Vision | • Multimodal AI | • Prompt Engineering | • Speech-to-Text |
| • Text-to-Speech | • Voicebots | • Speech Analytics | • Django |
| • Flask | • PostgreSQL | • MySQL | • APIs |
| • API Connectors | • Claude Code | • Apache Kafka | • Apache Spark |
| • Anaconda | • Jupyter Notebook | • AI-First Prototyping | • Product Management |
| • Software Development | • Project Management | • Operations | |

PROJECTS

Multimodal Emotion Recognition System, Chandigarh, India

- Built a real-time multimodal AI system (CV, NLP, sensors) with improved prediction via data fusion.

AI Automation & Data Systems, Chandigarh, India

- Developed automation pipelines and data workflows optimized for performance.
- Developed multimodal pipelines combining facial, vocal, and physiological signals.

Personal Experimental Designs, Chandigarh, India

- Created experimental projects including black hole simulation (C++) and Pygame applications.
- Designed data fusion workflows to generate actionable emotional insights.
- Implemented adaptive feedback systems to regulate mood via music and lighting.
- Improved system performance through iterative testing and calibration.

ADDITIONAL CONTRIBUTIONS

LEADERSHIP & RESEARCH

- Supported onsite and forward-deployed client engagements, translating field issues into technical and product improvements.
- AI research and Brain-Computer Interaction work at Kalpana Chawla Space Centre; IEEE member.
- Worked with PostgreSQL, API connectors, JavaScript, JSON, Python, Django/Flask, prompt engineering, and STT/TTS workflows.
- Core member, IdeateX and GeexPro; participated in technical events and collaborations.
- Finalist: TATA Ideathon, KPIT Sparkle, Vihaan 6.0, and PEC AI Hackathon.
- Core member, Technology Business Incubator; exposure to angel investors.

EDUCATION

Chandigarh University - Mohali, IN-PB, Chandigarh

Bachelor Of Engineering (Hons.) Computer Science Engineering (AI/ML specialization), Aug 2022 to Jun 2026

Army Public School, Chandimandir - Chandimandir Cantonment, Panchkula, Chandigarh

PCM with CS and PE, Mar 2020 to May 2021

12th Boards - 92%

10th Boards - 93%

ACCOMPLISHMENTS

Football - State Level • Basketball - District Level • Debate Team Captain; Vice Head Boy • MUN DISEC Delegation • Modelling; Guitarist and Singer • Part of Indo-Bangla Military Cultural Delegation: member of the delegation team that visited Bangladesh Military Schools for a cultural visit.

LANGUAGES

English, Hindi
